Data for State of Florida

Michelle Zameska <michelle.zameska@ascension.org>

Wed, Jun 11, 2025 at 11:05 AM

To: Michael Woodard <michael.woodard2@ascension.org>

Cc: Melanie Henning <melanie.henning@ascension.org>, Ashley Field <ashley.field@ascension.org>, Michelle Carmona <michelle.carmona@ascension.org>, Brittany Thrift <brittany.thrift@ascension.org>, DeeDee Baka <deedee.baka@ascension.org>, Sarah McCarter <sarah.mccarter1@ascension.org>, Lori Dyess <ddyess@ascension.org>, Triniti Caine <triniti.caine@ascension.org>, Stephanie Gullledge <stephanie.gullledge@ascension.org>, Dawn Garcia <Dawn.Garcia@ascension.org>, Matthew Castillo <matthew.castillo@ascension.org>

Phew!!

Thank you for confirming it IS 2024! :-)

I will place a pdf of this email into our Florida State Submission folder so we have it for future reference.

Michelle

Hi Michelle and Melanie,

I just took a look at the data files that Jeff originally split out into CSVs and compared the data and can confirm that the data is from 2024, it was just a matter of Jeff incorrectly labeling the sheets at the time (probably just rushing). I've included a screenshot that shows where I'm comparing one of the CSVs to the original full data file, filtered to the same BU - and can see that the data is identical. Also, the original datafile includes additional data that shows the submitted date (2024) - so that's how I confirmed that it is the most recent.

Sorry for any confusion or inconvenience!

National Team - can you confirm that the data you supplied was from our 2022 survey?
And if it is, we need our 2024 data in the same format so we can submit to AHCA prior to the August deadline.

Please let me know if there are any questions.
Melanie, thank you for bringing this forward.

Michelle

Good Morning!

While reviewing the CSV files for the COS survey submission, I noticed that the data is from 2022. Since there was a more recent COS survey conducted in 2024, should we be using the 2024 data instead?

Thank you, Michael, for giving us access to the drive.

We appreciate the data.

We will reach out if any questions arise as we begin the process of uploading to the State.

Thank you again for your partnership!

Good morning, everyone!

I'm just checking to see if our data files are ready.
We must submit the files to the State of Florida between June 1 and August 31.

Thank you,
Michelle

Thank you for the clarification Michelle! We will create the datafiles only using the hospital information and by BU.

Please let me know if you have any questions or if I can be of further service.

Cheers,

Jeff

For pharmacy - if our internal hospital pharmacy staff were given the pharmacy specific questions, and those were different questions than the AHRQ questions, I don't think there will be a way to include their responses. **Moving forward to the next survey, however, we need to ensure at least for Florida, that they receive the hospital survey. Otherwise we will not be compliant with the state statute.**

Just so I understand what you are saying about the ASC/Hospital surveys - Are you saying you will submit the ASC survey for Pensacola? Or are you saying you have a way to combine the data from the ASC with the hospital data? We would need to parcel out the freestanding ASC staff from the in hospital outpatient surgery staff if they were all given the ASC survey. **And likewise as above - moving forward we need to ensure all hospital staff receive the same survey to meet the State requirements.**

Thank you Michelle, I think we're 3/4 of the way there. No problems between hospital and ASC data; they each have a specific format that we can accomodate. However, I could not find a specific way to send in the pharmacy data. Since the questions are different from either hospital or ASC, and I could not find a specific format, we could use some advice on how to format the datafile(s) for submission.

Cheers,

Jeff

Hi, Jeff and Happy New Year to you!

A couple clarifications.

The State's directions say to include all staff that work in the facility - so we need to include all of our staff in our responses:

59A-35.115 Patient Safety Surveys.

(1) Each hospital and each ambulatory surgical center (ASC) must conduct or contract to conduct the Agency for Health Care Administration's (Agency) Patient Safety Culture Survey (PSCS) pursuant to Section 395.1012(4), F.S. The survey must be administered within two years of the effective date of this rule, and thereafter, on at least a biennial basis.

(2) Reporting Period. Each facility must submit the PSCS data to the Agency between June 1st and August 31st every two years.

(3) Administering the survey:

(a) Each facility **must administer** the anonymous surveys **to all the facility's staff members. For the purposes of this rule, all persons who work in the facility are considered staff members.**

1. For hospitals, staff respondents will complete the Hospital Patient Safety Culture Survey, AHCA Form 3130-8015, October, 2022, incorporated by reference and available at: <https://www.flrules.org/Gateway/reference.asp?No=Ref:15002> and at: <https://ahca.myflorida.com/schs/committeescouncils/indexpsca.shtml>.

2. For ASCs, staff respondents will complete the Ambulatory Surgical Centers Patient Safety Culture Survey, AHCA Form 3130-8017, October, 2022, incorporated by reference and available at: <https://www.flrules.org/Gateway/reference.asp?No=Ref:14999> and at: <https://ahca.myflorida.com/schs/committeescouncils/indexpsca.shtml>.

Please let me know if you have any questions or if I can be of further service.

I cannot speak for Jacksonville as to whether or not they have a freestanding ASC. But for FLPEN, we are only responsible for hospital submissions. There *is* a freestanding ambulatory surgery center here in Pensacola, however, we only have partial ownership and we do not oversee anything related to their quality requirements. However, for Sacred Heart Pensacola, we do have an on site outpatient surgery center. IF those associates were assigned the ASC survey to complete, their responses would need to be included and sent to the State as part of the hospital survey. (Not a separate submission under ASC.)

For the Pharmacy Survey - same idea. If our on site hospital pharmacy associates were sent the Pharmacy survey to complete, their responses would also need to be included and sent to the State - as part of the hospital survey.

We would not include anything from the nursing home surveys as they are not part of our hospital staff.

Same goes for the medical office staff.

Please let me know if this helps to clarify or if we need to have another call.

Michelle

Hello and Happy New year! Michelle, I was starting to parse through the requirements and data for our submission to the State of Florida later on this year. On our last call, I remember (perhaps incorrectly) that we discussed having to present all five of our surveys (hospital, ASC, medical office, pharmacy, and nursing home).

However, while re-reviewing the requirements (partially copied below), I only saw that we needed to submit data for hospitals and ASCs. Additionally, those were the only two forms that had the additional one or two questions specific to the FL state requirements. Have there been recent revisions to the requirements such that we need to submit additional data from the other

surveys? Of course, we're happy to accommodate any requirement; we just want to make sure we're doing the right thing. Please advise, thank you!
